## COMPUTER SCIENCE

Motivated and results-driven Computer Science graduate seeking a challenging internship position as a Frontend, Backend, or Fullstack Developer in any organization. Offering a strong foundation in React, TypeScript, Node.js, JavaScript, MongoDB, and SQL, with proven ability to drive efficiency, deliver successful outcomes, and collaborate within cross-functional teams.

---

## SKILL

html	react	nodejs
css	nextjs	mongodb
mui	javascript	sql
tailwindcss	typescript	postgresql

---

## PROFESSIONAL EXPERIENCE

**April 2024**

### Fontend Internship

During my summer internship, I had the opportunity to work on an intense and rewarding project: developing a comprehensive dashboard using React and TypeScript. The entire project was completed within a tight timeline of one month, providing me with invaluable experience in rapid development and efficient project management

**Feb 2024- March2024**

### Fullstack React

Created a comprehensive cow management system using React, Node.js, and MongoDB, with hosting on Vercel. Implemented CRUD operations and user authentication, ensuring seamless data handling and user interaction. Focused on responsive design and efficient state management for optimal performance.

**May 2024**

### Developed "Jobify" Full-Stack CRUD Application

Jobify a full-stack CRUD web application featuring user login functionality. Utilized React for the frontend, Node.js for the backend, and MongoDB for the database. The project involved creating reusable components, managing state with React, building RESTful APIs with Express, and implementing secure user authentication with JWT. Ensured robust form validation and error handling throughout the application. Deployed the application to Render, showcasing proficiency in modern web development practices and deployment strategies.

**June 2024**

### Fullstack React MERN

Built a full-featured e-commerce platform using the MERN stack, incorporating CRUD operations, user authentication, and real-time responsiveness. Designed dynamic components with React, created RESTful APIs with Express and Node.js, and secured user data with JWT. Ensured a responsive design across devices and deployed the application on Heroku.

## EDUCATION & CERTIFICATIONS

### Bachelor of Science

Majors: Computer Science  
Rajamangala University of Technology Lanna Nan

### High school diploma

Srisawatwittayakarn

### The Ultimate React Course React Certifications

Learning Next.js, Context API, React Query, Redux, Tailwind, and advanced patterns on Udemy

### MERN 2024 Edition Certifications

MongoDB, Express, React and NodeJS in udemy
